CAPABILITY STATEMENT · OCTOBER 2026

Levant Systems

ABN **96 564 899 299**
Sydney, NSW
levantsystems.cloud

CAPABILITY

We design and build the digital systems a small or mid-sized business runs on: the website people find, the store that takes the money, and the tools that stop the office re-typing the same number into three places. We work end to end: planning, design, build, launch and the care afterwards. No part of that is subcontracted.

DISCIPLINES

Strategy & scoping · Systems design · Front-end engineering · E-commerce · Micro-ERP & integrations · Automation · SEO & AI search · Hosting and back-end optimisation · Tech solution transformation

WHAT IT COSTS

Starting prices, not quotes. You get a fixed number after the call.

Presence

from A$2,000 · 1–4 weeks

A sole trader or new business that needs a credible front door.

- Up to five pages, mobile-first
- Brand-aligned design, never a template
- Enquiry form over authenticated SMTP

Performance

from A$8,000 · 5–8 weeks

An established business where the website has to generate the work.

- Up to fifteen pages, plus service and area pages
- One accelerator of your choice included
- Three months of care included

Systems

from A$18,000 · 8–16 weeks

An operator replacing spreadsheets and manual handoffs with something that runs.

- Web app, Micro-ERP or mobile app
- Integrations across your existing tools
- Everything in Performance

ACCELERATORS · BOLT ONTO YOUR EXISTING SOLUTION

Instant quote estimator	Booking and intake	Review capture	Reporting dashboard	Integrations
Starting +A$900	Starting +A$1,200	Starting +A$600	Starting +A$1,800	Starting +A$1,500

CARE PLANS · MONTHLY, CANCEL ANY TIME, NO LOCK-IN

Essential · A$180 /mo
A site that stays up, safe and backed up.

Growth · A$380 /mo
Care plus the small changes and the search work.

Priority · A$780 /mo
First in the queue, with strategy attached.

OUR PROMISE

1 business day
Every enquiry answered, by a person, not an autoresponder.

3 rounds
Revisions included and named in the quote, so “one more change” is never a fight.

Day one
Accounts are in your name from day one; ownership transfers to you on final payment as per project agreement.

−10%
If we miss an agreed launch date for a reason that is ours, the next invoice drops by ten per cent.

EXPERIENCE

10 Years combined experience in enterprise practice, across **9 sectors**: healthcare, energy, mining, government, higher education, construction, consumer products and retail, social services and not-for-profits, and sole traders.

Large organisations force habits that small ones rarely get taught: written scope, staged releases, accessibility as a build standard, and performance budgets that are measured rather than hoped for.

CERTIFICATIONS AND CREDENTIALS

- ABN 96 564 899 299 · registered
- Master of Applied AI (in progress)
- Bachelor of Engineering
- Bachelor of Marketing
- Bachelor of Business Analytics
- CERT IV in Cyber Security
- CERT IV in Networking
- CERT IV in Accounting
- SAFe Scrum Master
- TOGAF
- AWS Solution Architecture
- Data Engineering

WHO YOU'LL ACTUALLY TALK TO

Mohammad Zoubai

MANAGER · STRATEGY AND DESIGN

Runs the first call, owns the scope and the price, and signs off every release before it ships.

Turning business problems into design requirements.

Obaida Alnakdali

TECHNICAL LEAD · IMPLEMENTATION AND INTEGRATIONS

Builds the things that have to keep running, the actual solution, integrations and the automations.

Turning requirements into a working solution.

Amro Zoubai

ADVISOR · QUALITY AND SCALING

Ensures solutions meet the needed quality, performance, and commercial standards.

Turning solutions into business value drivers.

PROOF · EVERY ONE IS A LINK YOU CAN OPEN AND CHECK

Ghalion Industries CLIENT PROJECT · EMBEDDED CNC DESIGN	A store that sells files, not furniture: instant delivery after checkout, four design categories, accounts, a wishlist and coupon codes. anasghalion.com
SUPERCRETE CLIENT PROJECT · READY-MIX CONCRETE	A bilingual EN/AR site for an industrial producer: services, a five-stage quality process, a facility gallery, the team, and a downloadable company profile. supercretegroup.com
Qanadeel Maqdseah CLIENT PROJECT · EDUCATION NON-PROFIT	A programme platform: member sign-up, course and diploma enrolment, an events calendar, a publications library and a news archive, Arabic-first throughout. qnadellmaqdseah.com
Radiology information system CLIENT PROJECT · RADIOLOGY · LEBANON	A radiology information system we built for a private clinic in Lebanon. The clinic works from a single visit list. radiology.levantsystems.cloud · demo
Finance and approvals system LEVANT SYSTEMS · DEMO	Financial requests, approvals, cash position, debts and per-project spend, with a full audit trail. finance.levantsystems.cloud · demo
